The Bakery Task – Grade 3

On Monday morning, the baker baked four full trays of cookies to sell in his shop. Each tray had the same number of cookies on it. Here is what the trays looked like on Monday evening.

A. How many cookies did the baker sell on Monday? Show how to use multiplication equations and other operations, if needed, to show how you solved the problem. Refer to the trays of cookies in your explanation.
B. Use words or equations to explain how you know your total is correct.
